

# EYE CARVING 101

This handout presents basic eye carving techniques in ten easy steps.

1

Draw two curved lines.

2

Cut the lines in with a V-tool.

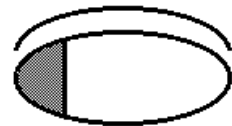

3

Cut new line in with a V-tool.

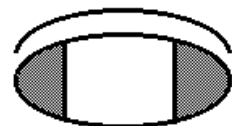

4

Cut the chip out on the side of eye.

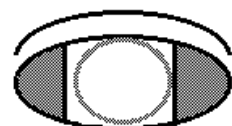

5

Cut the chip out on the other side.

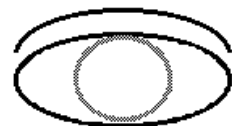

6

Draw the pupil.

7

Cut in the pupil.

8

Use a gouge to form the lower lid.

## EYE CARVING INSTRUCTIONS

9

Use a pencil or paint to make the iris.

10

Cut from the eye to the top curve with a V-tool to form the top lid.

See *Head & Face Basics* for layout and proportion information on the human eye.

See *Painting Instructions for Santa Handout* for details on painting the eye.

Created by Robert Trude:

<http://www.tiac.net/usersrtudel/patterns>

**Note:** I drew the eyes in a draw tool to clear up the hand drawn versions Robert had in his handout.
