

CARVING TIPS FOR A POCKET PROJECT

Half-sized Pattern

To carve this project:

1. Round the sides between the points.
2. Beware the change in the dynamics.
3. Using shallow "V" cuts, put in the veins of the leaf.
4. Round and smooth up the project.

If adding berries:

1. Drill a " hole at an angle to the stem.
2. Shave the skewer to fit the wooden beads and the hole drilled in step-1.
3. Insert the skewer into the hole. Place a drop of craft glue on the skewer.
4. Mount the beads.

PAINT SCHEME

Berries:
Bright Red

Stem:
Brown-Gray Wash

Leaf - Wash 1:
Bright Yellow-Green

Leaf - Wash 2:
Dark Green (Hunter)
