

You are invited to join the

National Wood Carvers Association

"Some carve their careers: others just chisel"
Since 1953

If you have any interest in woodcarving: if you carve wood, create wood sculpture, or even just whittle in your spare time, you will enjoy your membership in the National Wood Carvers Association. The non-profit NWCA is the world's largest carving club with over 33,000 members. There are NWCA members in more than 56 countries around the globe.

The Association's goals are to:

- ◆ **promote wood carving**
- ◆ **foster fellowship among member enthusiasts**
- ◆ **encourage exhibitions and area get togethers**
- ◆ **list sources of equipment and information for the wood carving artist**
- ◆ **provide a forum for carving artists**

The NWCA serves a valuable network of tips, hints, and helpful information for the wood carver. Membership is only \$14.00 per year.

Members receive the magazine Chip Chats six times a year, free with their membership. Chip Chats contains articles, news events, demonstrations of technique, patterns and full color showcasing examples of fine craftsmanship. Through this magazine you will be kept up to date on shows and workshops to attend, new products, special offers to NWCA members and other members' activities in your area and around the world.

National Wood Carvers Association
